BRASIGRAN

A Brasigran é o elo entre a pedra natural e os principais projetos de arquitetura e design.

Localizada no Espírito Santo, Brasil, em uma área de 60.000 m², sua indústria é capaz de auxiliar na materialização de grandes ideias que se transformam em projetos executados com alto padrão de qualidade e sustentabilidade.

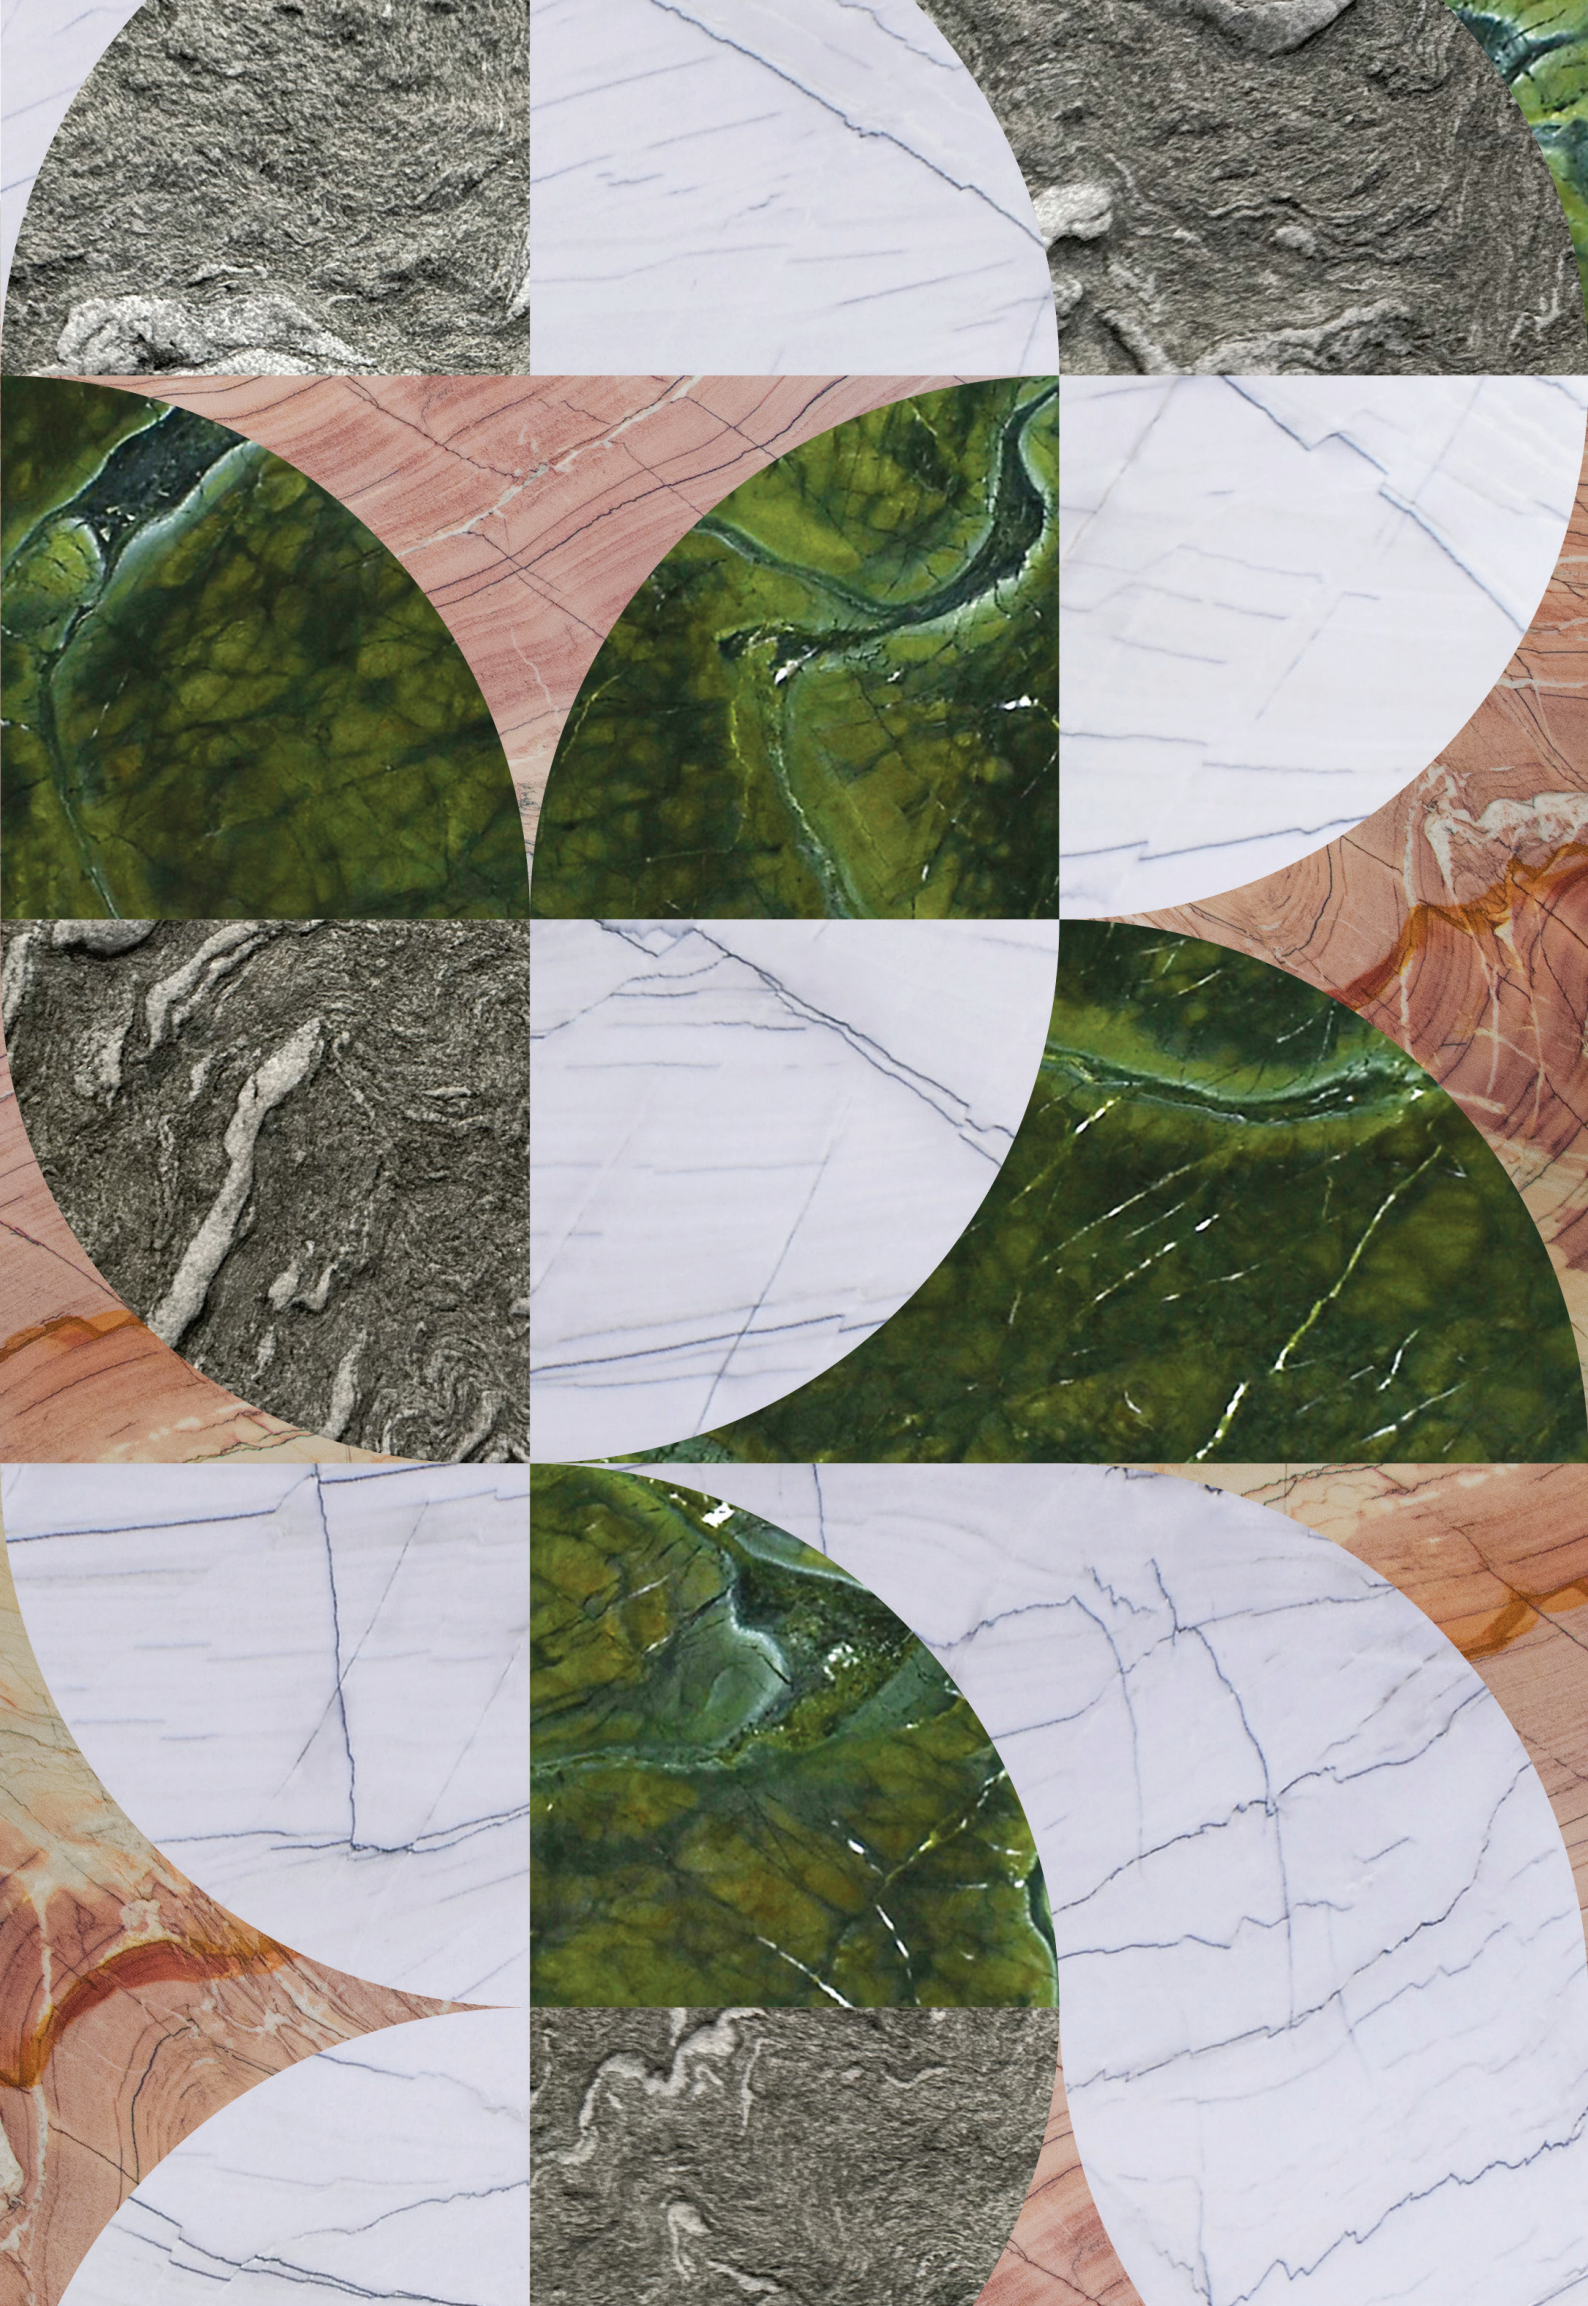

Dos materiais clássicos aos exóticos, para grandes projetos ou peças personalizadas, a Brasigran oferece a melhor solução técnica e diversidade com mais de 40 tipos de materiais.

Brasigran is the link between natural stone and the main architecture and design projects.

Located in Espírito Santo, Brazil, in an area of 60,000 m², its industry is capable of helping in the materialization of great ideas that are transformed into projects that are executed with a high standard of quality and sustainability.

From classic to exotic materials, for large projects or personalized pieces, Brasigran offers the best technical solution and diversity with more than 40 types of materials.
